PROFESSIONAL SUMMARY

Aspiring Data Analyst with a Bachelor of Commerce (Finance) from the University of Calicut and practical experience in SQL, PostgreSQL, Python, Pandas, NumPy, Excel, and Power BI. Skilled in data cleaning, exploratory data analysis (EDA), SQL query writing, and dashboard development. Seeking an entry-level Data Analyst role or internship.

TECHNICAL SKILLS

- * Programming & Querying: Python, SQL, PostgreSQL
- * Data Libraries & Analytics: Pandas, NumPy, Matplotlib
- * Business Intelligence & Visualization: Power BI, Excel
- * Methodologies & Tools: Data Cleaning, Exploratory Data Analysis (EDA), Data Visualization, Git, GitHub, VS Code, pgAdmin

PROJECTS

COVID-19 Data Analysis

- * Description: Analyzed a COVID-19 dataset using SQL, PostgreSQL, Python, Pandas, NumPy, and Excel to identify global transmission trends, mortality rates, and vaccination progress.
- * Key Deliverables: Performed data cleaning, exploratory data analysis (EDA), complex SQL joins, CTEs, window functions, and time-series trend analysis.
- * Tech Stack: SQL, PostgreSQL, Python, Pandas, NumPy, Matplotlib, Excel

CERTIFICATIONS

- * AI for Data Analysis - Google (Coursera)
- * AI Fundamentals - Google (Coursera)
- * Introduction to Data Analytics - Simplilearn SkillUp
- * Data Analyst 101 - Microsoft & Simplilearn

EDUCATION

Bachelor of Commerce (Finance) - Graduated 2026

University of Calicut, Kerala, India

- * Focus: Corporate Finance, Business Operations, Accounting Structures, Statistics

SOFT SKILLS

- * Analytical Thinking
- * Problem Solving
- * Communication
- * Teamwork
